## Customize Your ESL Class

We can design the program with specific vocabulary and phrases unique to your company.

Online classes help teach your non-English speaking employees critical language skills.

Online classes teach culture and basic phrases of employees to help managers boost morale and give a sense of acceptance.

\*In person classes available.

### Learn at Home

Our ESL classes are virtual so that means your employees can learn from the comfort of their home.

They do not need to find transportation or childcare.

## What We Offer

### Apply English

Your employees will be able to put their English to use right away on the job.

### Our Approach

Experienced instructors who create a stress free learning environment.

Employees are taught functional English they can use immediately.

We customize the ESL classes to fit your goals.

### Return on Investment

Increase cost-effectiveness, productivity & retention with improved understanding.

Help to close the communication & cultural gap which will help with retention.
